

CYBERSECURITY CONSULTING & VCISO SERVICES

DEFEND, DETECT, SECURE

At Next Level Secure, we understand that 43% of cyberattacks target small and mid-size businesses. But only some companies can afford a full-time security guru. That's where our vCISO services come in. We offer top-tier, on-demand cybersecurity without the hefty price tag.

Our experts at Next Level Secure are adept at pinpointing vulnerabilities, ramping up your defenses, and ensuring you're on top of the latest security regulations. It's about more than dodging those costly breaches, which can slam small businesses with an average hit of \$200,000.

It's about maintaining your customers' trust and keeping your operations smooth. With Next Level Secure, it's straightforward: better security, smarter spending.

SERVICES

- Develop Cybersecurity Strategy
- Conduct Risk Assessments
- Create Policies and Procedures
- Provide Security Awareness Training
- Perform Security Audits
- Plan and Test Incident Response
- Manage Vendor Risks
- Support Compliance and Regulations

- And much more.

ABOUT US

Founded by Eric Peterson, Next Level Secure evolved from a passionate side project into a dynamic, up-and-coming small business. We're focused on boosting security maturity and minimizing cyber threat risks for both homes and businesses. Specializing in cybersecurity consulting and vCISO services, we're here to help small companies proactively manage their cybersecurity, safeguard sensitive data, and build strong customer trust. **Let's strategize!**
